

## COLD SHRINK TERMINATIONS

The cold shrink cable termination kits are suitable for both Indoor (Cable box, switchgear, transformer) and Outdoor (Pole mounted) applications, used for terminating single core armoured and unarmoured polymeric insulated cables.

### PRODUCT FEATURES

- One Piece Design with integrated stress control arrangements.
- Excellent performance & reliability
- Silicon Rubber material for excellent electrical insulation and weathering properties
- Hydrophobic silicone material to repel water
- Reliable operations, proven in practice
- Suitable for use with mechanical or compression cable lugs (available on request)

SYSTEM VOLTAGE	CABLE CROSS SECTION (2 mm)	CONSTRUCCIÓN DEL CABLE
15 KV	35-95	UNARMoured ARMoured
	120-300	UNARMoured ARMoured
	400-630	UNARMoured ARMoured
24 KV	35-95	UNARMoured ARMoured
	120-300	UNARMoured ARMoured
	400-630	UNARMoured ARMoured
36 KV	50-95	UNARMoured ARMoured
